

AI Governance Workshop 27-28 July

Day One - 27 July (all times EDT/BST)

9-9.10/2-2.10 **Welcome and Housekeeping** (Elizabeth Lomas)

9.10-10.10/2.10-3.10 **Opening panel** (Chair: Kelly Lyons)

Opening perspectives from:

- **Carole Piovesan – Partner and Co-Founder – [INQ Data Law](#)**
- **Pete Rai – Principal Engineer – Cisco**
- **Dhaval Shah – Director: Innovation - Bank of Canada**
- **Ali Shah - Head of Technology - Information Commissioner’s Office (UK)**

10.10-10.25/3.10-3.25 **Virtual Coffee Break.**

During virtual coffee breaks workshop attendees will be randomly allocated to a small break out group/coffee queue. These sessions will stay open until we bring everyone back to the main session. So, when we break out, go and grab a coffee and then come back to introduce yourself to those in your ‘queue’, and (optionally) discuss this ice-breaker question: **In your current work, what aspect of the opening panel resonated most strongly with you?**

10.25-11.40/3.25-4.40 **Making the invisible visible** (Chair: Elizabeth Lomas)

Presentations as follows:

- 10.25/3.25 **Impact Assessments: a review of current frameworks and their applicability to AI Governance** – Lomas, Elizabeth; Almeida, Denise; Koshiyama, Adriano; Shmarko, Konstantin; Patel, Oliver; Wu, Yung-hsuan.
- 10.40/3.40 **The Interrelation between data and AI ethics in the context of impact assessments** - Kazim, Emre; Koshiyama, Adriano.
- 10.50/3.50 **Data Annotation. Between Subjectivity and Imposition** - Miceli, Milagros; Schuessler, Martin.
- 11.00/4.00 **Examining the extent to which various types of bias are discussed in AI/data science research** - Mahfouz, A.
- 11.10/4.10 **An evaluative taxonomy of data governance programmes in the private and public sectors** - Trefiak, William.
- 11.20/4.20 **Explainable AI in Autonomous Systems: Does the User’s Wish for Explanation Vary With the Moral Significance of the Application Context and the Individual Locus of Control?** - Kallina, Emma.

11.40-12.00/4.40-5.00 **Virtual Coffee Break**

Another opportunity to chat with some fellow attendees with a suggested ice-breaker question: **What other aspects of AI come to mind as being often overlooked?**

12.00-13.00/5.00-6.00 Ethical behaviour (Chair: Denise Rodrigues Silva Almeida)

Presentations as follows:

- 12.00/5.00 **Systematic effort to compile, classify, and comparatively analyze AI ethics frameworks** - Frost, Robert; Walters, Deneille; De los Rios, Andres.
- 12.10/5.10 **Artificial Intelligence for Humanitarian Assistance: Ethical Frameworks for Rights Based Data Activities** - Dedeoglu, Cansu E.
- 12.20/5.20 **Automating Work and not the Worker: Human-Centered AI for the Informal Sector** - Jennings, Margaret.
- 12.30/5.30 **How smart glasses and AI are changing labour practices** - Nunez de Villavicencio, Paula.
- 12.40/5.40 **A framework for collecting email data, where intent recognition analysis can be performed, on which declarative process mining techniques can be applied to recommend a follow up task, while preserving the identity of those involved** - Khandaker, Faria.

Day Two - 28 July (all times EDT/BST)

9-9.10/2-2.10 Welcome and Housekeeping (Chair: Kelly Lyons)

9.10-10.10/2.10-3.10 Research panel (Chair: Rohan Alexander)

Research perspectives from:

- **David Beavan - Senior Research Software Engineer – Digital Humanities in the Research Engineering Group (affectionately known as Hut 23) - The Alan Turing Institute**
- **Gillian Hadfield - Chair in Technology and Society, Professor of Law and Professor of Strategic Management; Director, Schwartz Reisman Institute for Technology and Society**
- **Harini Suresh - PhD student in computer science - MIT**
- **Michael Veale - Lecturer in Digital Rights and Regulation, UCL Laws**

10.10-10.40/3.10-3.40 Virtual Coffee Break

During virtual coffee breaks attendees will be randomly allocated to a small break out group/coffee queue. These sessions will stay open until we bring everyone back to the main session. So, when we break out, go and grab a coffee and then come back to introduce yourself to those in your 'queue', and (optionally) discuss this ice-breaker question: **In addition to those discussed by the panel, which research areas and discussion topics should be part of the AI governance agenda?**

10.40-11.40/3.40-4.40

Bias and privacy (Chair: Emre Kazim)

Presentations as follows:

- 10.40/3.40 **Alexa, are you a feminist? The social ramifications of virtual assistants performing gender.** - Walker, Taylor (she/her).
- 10.50/3.50 **Reimagining AI Policy: A call for feminist, Indigenous and environmental AI perspectives** - Mackley, Madison.
- 11.00/4.00 **Racial bias in AI** - Mahomed, Sabeedah.
- 11.10/4.10 **How bias in the datasets used to train NLP systems affects outcomes of those NLP systems** - Wiegelmann, Elena.
- 11.20/4.20 **Research on existing COVID-19 tracking apps and privacy laws and concerns** - Li, Cathy.

11.40-12.00/4.40-5.00 **Virtual Coffee Break**

Another opportunity to chat with some fellow attendees with a suggested ice-breaker question:

What is the main point that you're going to take away from this workshop?

12.00-13.00/5.00-6.00 **Summing up and next steps**

Chaired/facilitated by: Elizabeth Lomas, Kelly Lyons, Rohan Alexander.
